**THE FINNISH CTA ESTLANDER & PARTNERS AWARDED FOR BEST UCITS COMPLIANT PRODUCT IN EUROPE
2011 BY WORLD FINANCE**

World Finance has selected the German Estlander & Partners Freedom Fund UI as the Best UCITS Compliant Product in Europe in 2011. World Finance (www.worldfinance.com) is a journal with a global subscriber base, an award-winning editorial team, and a prestigious network of correspondents from the academic world as well as from the industry. Each year, the journal asks their readers to evaluate and vote for the companies that they think deserve consideration. The World Finance award selection panel uses a wide range of criteria in its final decision. Although strong consideration is given to investment returns, there are other important factors in the judging process. These include the investment discipline, risk management, the stability of the investment team, investor relations, back-office infrastructure, and compliance procedures. "We are very pleased to have our hard work recognised by receiving this prestigious award", says Martin Estlander, CEO of Estlander & Partners.
